Lincoln University

📅 1999

PROJECTS

DM sports e-commerce site

📅 01/2021 - 02/2021

🔗 <https://github.com/Webdev-DavidM/E-commerce-front-end>

This full stack application, created from prototypes I designed in sketch, uses CSS, React, Redux, Node, Express and MongoDB. I have included a video which showcases the site's main functionality and design below

<https://www.youtube.com/watch?v=tD1mlcceyhY>

SUMMARY

I am a candidate with a strong academic record with 11 GCSE A-C, 4 A levels B-D and a 2:1 degree. Since leaving university I have remained a lifelong learner. I took 3 exams to gain a certificate in mortgage advice and practice and subsequently becoming a mortgage advisor. I also gained professional qualifications in CCNA and Network + (networking qualifications).

In October 2019 I resigned from my role within the Clarion group to pursue a career as a web developer gaining 3 technical degrees as well as learning from a large number of online resources. I am quick learner and motivated to succeed as a web developer.

PROJECTS

Burger delivery service

📅 07/2019 - 04/2019

🔗 <https://github.com/Webdev-DavidM/Udemy-react-burger-app-with-redux>

This project uses React hooks to create a burger delivery service full stack application.

PASSIONS

I decided to learn to play the piano as an adult and took lessons for approximately 4 years and can now read sheet music and play to an intermediate standard.

I manage my son's Under 9's football team which is very rewarding and challenging at times.

I enjoy music technology and make music using a complex, industry standard software package called Logic Pro and various other plug-in technology. Please check out my tracks if you have time at <https://soundcloud.com/for-the-love-of-house1>
